

**Brainpower
& backpacks
don't matter
if your child
can't hear
the teacher
or see the
blackboard.**

Is your child ready to learn?

Bring your school-aged youngster to the doctor once a year to be sure.

A well-child checkup will tell you:

- ◆ If your child's eyesight and hearing are normal
- ◆ If your child is the right height and weight
- ◆ If your child needs any shots to prevent disease
- ◆ If your child has any medical problems that could cause illness later on

Please call your doctor and make an appointment for a well-child checkup.
