

**To: MDwise Hoosier Alliance Hoosier Healthwise PMPs**

**Subject: Panel Rosters Now Available Through NaviNet**

**From: James Shelton, Director Network Management**

**Date: April 6, 2011**

**You can now electronically access your MDwise Hoosier Alliance panel information through NaviNet.**

The panel roster on NaviNet mirrors the one we send to you in the mail, with these distinct advantages:

- Easy and immediate access
- More timely receipt of information
- Access six months of historical information
- Excel import capabilities for sorting data or mailing notifications to members
- Electronic download capabilities so you can integrate the data with your practice management system

Along with the enhanced capabilities of being able to review and download your panel roster, don't forget that NaviNet can provide you with the following important practice information:

**Care Gaps Reports:** A summary of the missing or overdue age- and sex-appropriate health screenings that a member should have will give you the opportunity to improve your practice's HEDIS performance scores.

Here are a few important aspects of these reports to keep in mind:

- Care Gap Reports will appear when checking a member's eligibility.
- You can view and print the reports in advance of a patient's appointment.
- Reports can be customized so you can identify and reach out to at-risk patients.

**Member Clinical Summary Report:** A timely snapshot of a patient's most relevant clinical facts and demographic information in a user-friendly format. The clinical summary, which can be printed or integrated with your practice's electronic medical records, includes:

- Name of the patient's PMP
- Physician office and ER visits
- Medication gaps in care
- Inpatient admissions

To access your MDwise Hoosier Alliance panel roster, follow these simple steps:

- Log on to MDwise Hoosier Alliance Central at [www.navinet.net](http://www.navinet.net).
- Choose→Report Inquiry→Administrative Reports Inquiry→Select→Panel Roster Reports

We are continuously working to bring a more comprehensive range of NaviNet's capabilities to our providers. In the coming months, expect to hear more about the ability to electronically submit original and corrected claims. If you have questions about NaviNet's expanded capabilities, please call your MDwise Hoosier Alliance Account Executive or one of our Network Management representatives at 888-961-3100, Option 2.
